

## **SWING TIPS**

### **TROUBLE SHOTS**

This looks like trouble, or more specifically a trouble shot. Trouble shots require solid balance, a more lofted club and a shorter swing. Keep in mind that it is fun to pull off a low percentage shot, but don't be disappointed when it does not work. If you are going to play safe, where would you like to hit the next shot from? Look to that safe area and now proceed with the safer shot. Another suggestion is to monitor your grip pressure, unless you are in gnarly rough, keep the pressure soft!

**Check out my web site for more tips and I look forward to working with you outside at Bearspaw!**

Sincerely,

**Glenn Boswell
