

SWING TIPS

The show must go on!

Have you ever noticed an entertainer, musician or singer make a mistake in their performance? It happens, probably more than we know, but do you ever notice them stop or hesitate to think about what they did? No, because they are in the moment or in the “game mode”. When you have a poor shot or hole, remember that you are in the “game mode”. Acknowledge your error and quickly turn your focus back to the next shot, the next target. Tell yourself “I will make some poor shots today and some good ones, tomorrow at the range I will work on the poor ones”. **The show must go on people!**
